Reactive and Acid printing

- All yardage for a production run over 25 yards must be washed as one lot
- Continuous yardage runs vary for production: please confirm cutting increments when order given
- Due to the nature of Digital Fabric printing- there will be slight variations from lot to lot from approval swatch
- *Client needs to sign disclaimer acknowledging issues which can occur*

Dye Sublimation: used for sampling or production

- **Digital fabric printing is not a direct science therefore, slight variations occur from sample swatch to production yardage**
- Synthetic fibered fabrics, mostly Polyesters are printed with disperse inks
- Client can submit their own polyesters for projects at after fabric testing occurred in LA studio
